

## PRESS RELEASE

### Alpha® Ecoguard W6

Oakland, NJ

August 25, 2019

Alpha Professional Tools® is excited to introduce the newest addition to their Ecoguard Dust Collection line up. The Ecoguard W6 is designed for collecting dust/debris when using a high-speed angle grinder with a vacuum.

The Alpha® Ecoguard W6 fits on most 4-1/2", 5" and 6" angle grinders. This unique guard was built for heavy-duty applications and has unique features such as the support base for precise cuts as well as an adjustable cutting depth to a maximum of 1-3/4". The clear cover allows for better visibility and is easy to install. It allows you to convert your existing dry angle grinder into a dustless tool and save money without the expense of a second tool.

The Alpha® Ecoguard W6 comes with multiple connectors, for most popular grinders\* on the market today, inner flange, lock nut, spacers, collars for, stainless steel hose band, rubber hose adapter, side handle and pin wrench. **\*\*Assembly required.**

In addition, for convenient attachment to a vacuum, Alpha® offers a flexible hose (Part No. 500073) or together as a kit (Part No. ECOW6KIT).
